

Schoolhouse Supplies Tools for Schools 20:20 Backpack Campaign

Join the effort to put backpacks filled with new school supplies in the hands of 20,000 students during the 20th Birthday Year of Schoolhouse Supplies. Your Tools for Schools sponsorship will meet the supply needs of every student at a Title 1 or CEP (Community Eligibility Provision) school. This successful program has already distributed nearly 170,000 backpacks, and with your help we can broaden our vision to include the needs of more schools and students in our community!

Employee Engagement

Your employees have the opportunity to volunteer at your sponsored school and engage with students and teachers while packing supplies into backpacks. This meaningful volunteer experience will occur just before or during the first week of school (August 2020). This direct engagement provides a deep connection for your staff: 100% of surveyed participants reported that they are proud of their company for sponsoring this program.

How It Works

At participating schools, every student in the school receives a new backpack filled with new school supplies. For many of the children, these may be the only new items that they receive all year. \$20 provides a backpack filled with brand new schools supplies for a low-income student.

Opportunities – Tools for Schools Sponsorship Is Only \$20/Student

\$1,000 Backpacks and supplies for 50 students in need
